

## Accessing StatRef e-Books using the Knowledge Centre catalogue

Some of the e-books supplied by ADA come in a package called StatRef. This database enables you to read individual e-books or to perform a search for a topic/subject area within the StatRef database. The search will locate chapters from different Statref books on that topic.

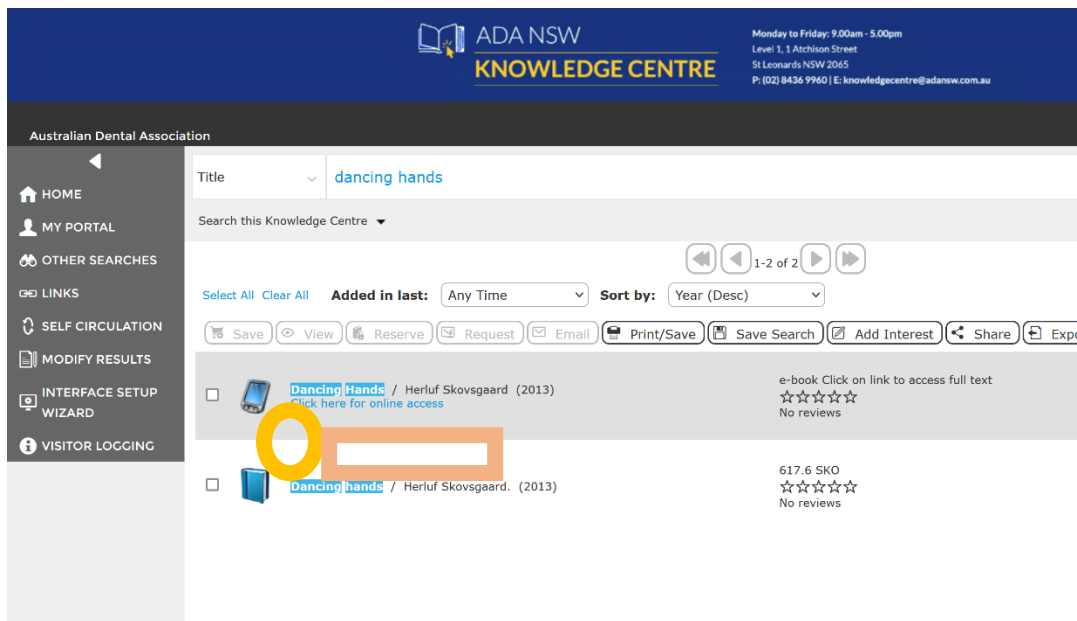

From the ADANSW Knowledge Centre there are two main ways to gain access to StatRef e-books.

- Search the catalogue for a specific e-book title and click on the link displayed underneath the book title. The StatRef database has about 23 dental titles **OR**
- Click on the StatRef icon on the home page

These books can be accessed individually or you can click on the StatRef icon and go to the StatRef e-book database.

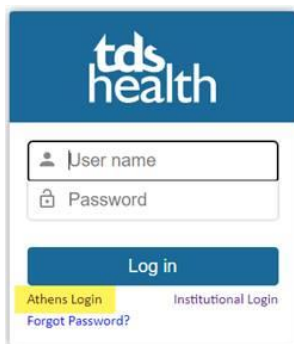

The screenshot shows the ADA NSW Knowledge Centre website interface. At the top, there is a navigation bar with the ADA NSW logo and contact information. Below this is a search bar with tabs for 'Basic search', 'Advanced search', 'Federated search', 'NSW Dentist', 'Published by ADANSW', and 'Browse by...'. The search bar contains the text 'knowledge Centre catalogue ... search here'. Below the search bar is a navigation menu with links for 'HOME', 'MY PORTAL', 'OTHER SEARCHES', 'LINKS', 'SELF CIRCULATION', 'INTERFACE SETUP WIZARD', and 'VISITOR LOGGING'. Below the navigation menu is a section titled 'OTHER RESOURCES - Quick access points to specific resources are below'. This section contains several resource icons: 'EBSCOhost DORS DENTAL DATABASE', 'OTHER ONLINE DATABASES', 'STAT!Ref EBOOKS DATABASE', 'ANATOMY TV ANATOMY FOR DENTISTS', 'COVID-19 ARTICLES', 'OTHER EBOOKS', 'RACDS READING LIST', and 'OTHER COURSE READING LISTS'. Two orange circles and arrows highlight the search bar and the STAT!Ref EBOOKS DATABASE icon, with the word 'OR' written between them.

If you searched for the book title, look for the e-book icon next to the title and click on the link displayed below the book title as highlighted below.

## Access to subscribed E-resources (journal or book) requires authentication using your ADA Federal membership number and password

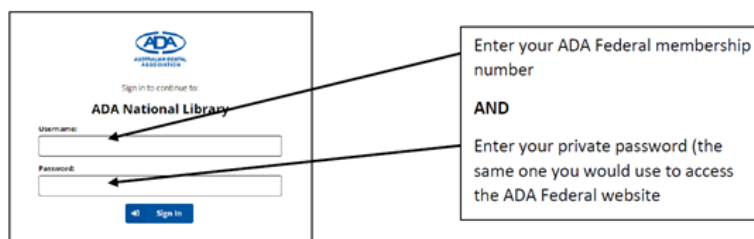

Both methods will take you to the StatRef database where you will be presented with the following log in screen

Click on the highlighted *Athens Login* link

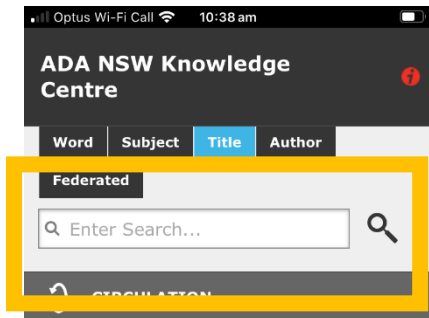

Search for the Australian Dental Association in the **Institution search box**

When presented with the following login screen, **login** using your ADA Federal membership number and password

# Accessing StatRef e-Books using the Knowledge Centre APP

There are still the same two ways of accessing the StatRef database as above it just looks a liitle different

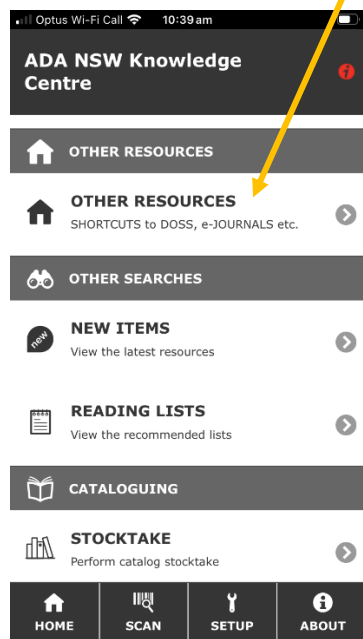

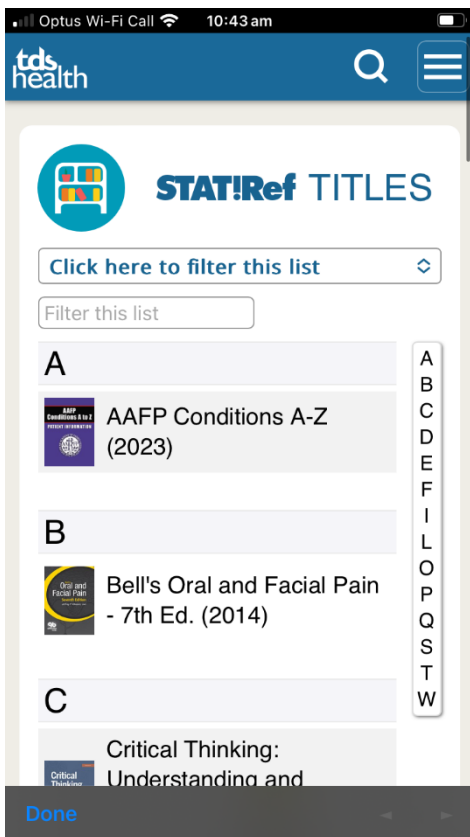

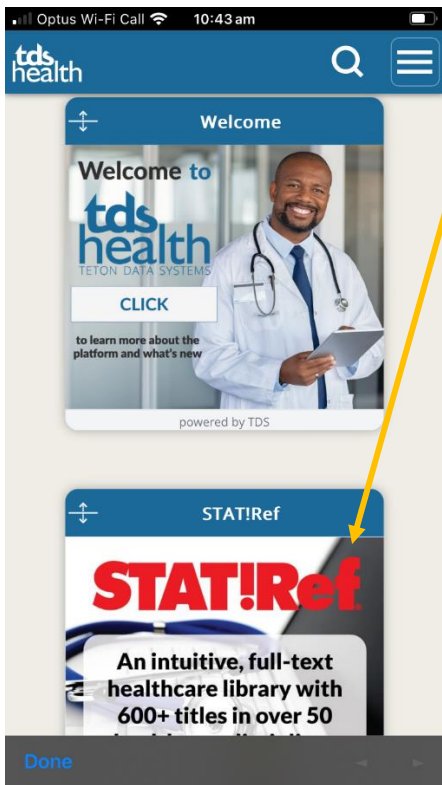

Search the catalogue for a specific e-book title

**OR**

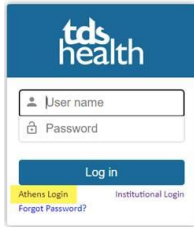

Click on the Other resources option

Then scroll down until you see the StatRef icon

A screenshot of the ADA NSW Knowledge Centre app showing the 'OTHER RESOURCES' section. The section is titled 'OTHER RESOURCES' and contains a list of links to various databases and services, including PubMed, The Cochrane Library, BioMed Central, Google Scholar, Trove, trip database, ADA Center for Evidence-Based Dentistry, Epistemonikos, STAT!Ref EBOOKS DATABASE, and ANATOMY.TV. A yellow arrow points from the text 'Click on the Other resources option' to the 'OTHER RESOURCES' header, and another yellow arrow points from 'Then scroll down until you see the StatRef icon' to the STAT!Ref logo.

The authentication process is the same as for accessing StatRef items from the Library catalogue.

Click on the highlighted Athens Login link

Search for the Australian Institution search box

When presented with the ADA National Library login screen, login using your ADA Federal membership number and password

Enter your ADA Federal membership number  
AND  
Enter your private password (the same one you would use to access the ADA Federal website)
