

Wiley E-journal subscriptions – December 2023

Logging in procedures to access to subscribed E-journals

ADA Inc have upgraded their Digital Library site enabling a more streamlined authentication system for members when accessing e-resources. **The previous username and password access is no longer valid** and NSW members now need to follow an Institutional login process that uses their ADA Federal Member number and password (same as normally used by members to login into the Federal website). There are several entry points allowing access to the Wiley e-resources that utilise this login method.

NOTE : Once logged in you will have access to e-resources marked as Full Access, Open Access and Free Access. The ADA icon will be displayed across the top of the page signifying that you are able to access the subscribed content.
